Dear Harold,

Congratulations on the excellent notice given ~~Frame Up~~ by Publishers Weekly.

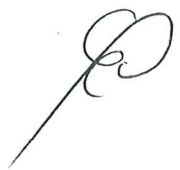
I hope it has a great popular and fiscal success.

Of course, the difficulty is again one of communication and response. The Warren Report has been critically dissected and popularly rejected.

Perhaps, a like verdict awaits The King and R. F. K. cases.

No doubt the government's response

will echo Allen Dulles — If they have found another assassin, let them name names and produce evidence.

The Anderson columns read like a scenario of Nov. 22 and oddly enough The F.B.I. handwriting expert, Charles Appel, acted as an expert witness for Shaw and Robert Maheu in his abortive suit against Howard Hughes.


Best Wishes,
